

# HEIDI EIGNER

Junior Web Developer

## PERSONAL PROFILE

For twenty years, I was working in administration, and though the work was rewarding at times, I realized that there was no room for growth. I then decided that I needed to make some drastic changes.

And so, with nothing but a high school diploma to my name, at the ripe age of 47, I went back to school. Since I didn't have a lot of time, I decided to join a "bootcamp" training course. It was one of the craziest decisions I have ever made. The course was grueling but we learned a lot. Seven months later, though I'm still an amateur, I am definitely on the road to becoming a bona fide web developer.

I am married with three grown children, and I live in Cote-Saint-Luc.
